

Regional workshop Broadband for schools – English summary

26 June 2006

Intercommunale Leiedal

1. Attendance list

Bob Bulcaen (Leiedal)

Stijn Vannieuwenborg (Leiedal)

Ignace Braecke (Leiedal)

2. Agenda

- How do we create public broadband infrastructure on the industrial sites Leiedal is developing?

3. Report - summary

- Next to the private sector we should investigate the implementation of a public broadband infrastructure
- What needs to be investigated?
 - Added value for new and existing industrial sites. (Unique selling proposition?)
 - What are the applications that could benefit from a public infrastructure
 - How do we maintain the infrastructure
 - What are the investment and maintenance costs
 - How can the private sector use the public infrastructure
